South Hadley, Mass  
Minutes**

July 26, 2019

Attentence: Jim Menard, Bill Selkirk, Jennifer Soper, Dennis Rochon, and two water dept. employees

Meeting time: 12:00

RE: Recreational access to Mountain trails from Rte. 116

Met with Jennifer J, Soper , Mass Land Protection Specialist Department of Conservation & Recreation, and discussed DCR's desire to have a parking area on Rts. 116 for hikers to access the Mountain trail. We walked the road access to the land on lot 20 to the bottom where the pump house and brook are. Jennifer stated the DCR has limited funds, and doesn't want a building. It was explained to her that the building comes with the property and the Districts objective would be to sell the land to provide the parking and access but would like to maximize the total dollar for the sale. Jennifer said she would bring the information back to the office and determine the DCR's next steps. Jim Menard expressed that we will determine if the building is on any historical register and start the process to figure out if there is any hazards within the building that would make it more difficult to remove.

Adjoin time: 1pm
